

From Screen to Stay

A rights-aware, evidence-audited framework for connected hospitality experiences.

Working proposition: the in-room display can be treated as an orchestration layer connecting guest-facing capabilities, operational systems, and property-specific value questions.

FRAMEWORK AT A GLANCE

6

experience pathways

CLM-HXG-PROPOSITION-01

3

evidence states

CLM-GRAPHRAG-METHOD-01

1

auditable framework

CLM-HXG-PROPOSITION-01

The six pathways are analytical propositions for testing - not empirical guest preferences, causal findings, or universal product claims.

SIX GUIDED PATHWAYS

Capabilities can support guest outcomes; they do not prove perception or value.

VALUE WITH DIFFERENT PROOF BURDENS

Human value

Comfort, control, familiarity, inclusion, security, and support.

Property value

Energy, support, and ancillary scenarios require local baselines, attribution, and verification.

EVIDENCE STATES

Solid

Direct fact

Dashed

Supported inference

Dotted

Modeled scenario

10 sources | 19 claims | 30 entities | 34 relationships | 4 contradictions | 1 countries
